

## A macro plays the wrong keystrokes to the wrong window

<b>Problem Summary</b>	A macro plays the wrong keystrokes to the wrong window.
<b>Error Message</b>	None.
<b>Possible Cause</b>	Macro playback is starting from the wrong window.
<b>Recommended Action</b>	Make sure that the macro playback starts from the same place every time it runs. Have the macro start from the same starting window with the cursor in the same starting position as when the macro was recorded.
<b>Release</b>	CAD Unified CCX 8.5
<b>Associated CDETS #</b>	None.
