

## Accept step error during active debug

<b>Problem Summary</b>	While debugging an application, the following message appears, where n is the task ID.
<b>Error Message</b>	<i>Task: nAccept Step: Trigger is not a Contact Application trigger.</i>
<b>Possible Cause</b>	The debugger encountered the Accept step in the application but there was no call to answer.
<b>Recommended Action</b>	Debug the application as a Reactive Application and make the call before the Reactive Application times out.
<b>Release</b>	Release 7.0(1)
<b>Associated CDETS #</b>	None.
