

Administration page does not load after a fresh installation

Problem Summary	The administration sign-in page does not load after a fresh installation.
Error Message	An error occurred that prevented administration sign-in page from loading.
Possible Cause	<ul style="list-style-type: none"> • The URL for the administration sign-in page uses HTTPS. • Browser cache or cookies are not cleared from a prior installation. • The administration Finesse Layout XML might be corrupt, or the Administration Console did not start up correctly.
Recommended Action	<p>Verify that the URL used to load the administration sign-in page is <i>http://hostname or IP address/cfadmin</i> and not <i>https://hostname or IP address/cfadmin</i>.</p> <p>If the URL is correct, clear your browser cache (delete browsing history and cookies). If the problem persists, restart the Cisco Tomcat service or restart the Finesse server.</p>
Release	Release 8.5(3), Release 9.0(1)
Associated CDETS #	None.
