

Log collection via the CLI fails when using the *compress* flag

Problem Summary	Log collection via the CLI fails when using the <i>compress</i> flag.
Error Message	None.
Possible Cause	Log collection may fail when you use the <i>compress</i> flag on the CLI command if there are a large number of log files.
Recommended Action	Run the command to collect the log files, using the same CLI command without the <i>compress</i> flag. For example, if you encountered a failure using the command file get active desktop recurs compress , try again with the command file get active desktop recurs .
