

After\_creating\_the\_datasource\_and\_System\_DSN,\_it\_is\_not\_getting\_displayed\_in\_the\_editor\_step

## **After creating the datasource and System DSN, it is not getting displayed in the editor step**

<b>Problem Summary</b>	After creating the datasource and System DSN, it is not getting displayed in the editor step.
<b>Error Message</b>	
<b>Possible Cause</b>	The editor has not been refreshed or the download of schema from the Enterprise DB is in progress.
<b>Recommended Action</b>	You need to click on Refresh Schema button from the editor step to download the schema from the external database. After clicking the button it will take some time to download the schema from the enterprise database based on the database size. It will start displaying the datasource after completing the download.
<b>Release</b>	Release 7.0, Release 5.0
<b>Associated CDETS #</b>	None
