

## After the upgrade SQL Server got changed to MSDE

<b>Problem Summary</b>	After the upgrade SQL Server got changed to MSDE. 'db_cra' database size became 2gb.
<b>Error Message</b>	None
<b>Possible Cause</b>	Used non-Cisco provided DVD for SQL Server install. There is a wrapper for the SQL Server installer which updates the CCX specific configurations during installation. If you use non-cisco provided DVD, these configuration changes will not happen during installation and this can result in these types of issues.
<b>Recommended Action</b>	Reimage the box and install OS, CCX and use SQL DVD provided by Cisco for SQL Server installation.
<b>Release</b>	Release 7.0, Release 5.0
<b>Associated CDETS #</b>	None
