For getting started quickly with Cisco AXP, we recommend that you start by reading this guide. Then read the following two detailed guides:

Cisco AXP User Guide This guide explains how to configure routers from the Cisco ISR or Cisco ISR-G2 series and the Cisco AXP service module. Refer to the relevant Cisco AXP User Guide.

Cisco AXP Developer Guide This guide describes how to develop, package and install applications for Cisco AXP. It also explains how to configure the Cisco ISR or Cisco ISR-G2 series router and the Cisco AXP service module. Refer to the relevant Cisco AXP Developer Guide.

Links to Cisco AXP and related documentation are shown in the following table Table: Cisco AXP Documentation.

Information on supported hardware and Cisco IOS software is found in the Release Notes for Cisco AXP. Refer to the relevant version of the Cisco AXP Release Notes.

Table: Cisco AXP Documentation
