

Archiver: Free Space and Emergency Purge

Problem Summary	You are running out of space on the Archiver server.
Error Message	Emergency Purge messages in t_Log table.
Possible Cause	You are running purges infrequently or the retention times need to be shorter.
Recommended Action	Manage the amount of free space and the retention times in your database to ensure that there is no need for an emergency purge. Periodically query the t_Log table to ensure that there are no emergency purge messages.
Release	Release 7.5(x)
