

GetSpeech Micro-Application With Datatype "Currency" Does Not Work with Negative Currencies

Problem Summary	The GetSpeech Micro-Application with datatype set to "currency" does not work with negative currencies.
Error Message	None.
Possible Cause	The ASR-TTS server is Nuance 8.5(ASR). This version of Nuance does not support negative currencies for the VXML Server built-in "currency" grammar.
Recommended Action	Write your own grammar for dealing with currency or contact Nuance support.
Release	Release 7.0(2)
Associated CDETS #	None.
