

## GetSpeech Micro-Application With Datatype "Currency" Does Not Work with Negative Currencies

<b>Problem Summary</b>	The GetSpeech Micro-Application with datatype set to "currency" does not work with negative currencies.
<b>Error Message</b>	None.
<b>Possible Cause</b>	The ASR-TTS server is Nuance 8.5(ASR). This version of Nuance does not support negative currencies for the VXML Server built-in "currency" grammar.
<b>Recommended Action</b>	Write your own grammar for dealing with currency or contact Nuance support.
<b>Release</b>	Release 7.0(2)
<b>Associated CDETS #</b>	None.
