

CAD desktop not accessible via telnet from the Unified CCX server

Problem Summary	An administrator cannot telnet from the Unified CCX server to a desktop hosting a CAD application.
Error Message	None.
Possible Cause	A firewall is blocking access.
Recommended Action	Open ports 59000?59030 in any firewall between the Unified CCX server and the CAD desktop to enable access.
Release	CAD Unified CCX 8.5
Associated CDETS #	None.
