

CCX Node is not reachable during backup using PUT

Problem Summary	Pre-Upgrade tool backup failed with CCX node is not reachable error on HA setup.
Error Message	Cisco Unified CCX node <IP> is not reachable.
Possible Cause	Second (standby) node is not up and running.
Recommended Action	Make sure that the second (standby) node is up and running. If it's permanently down, remove it from CCX cluster and perform the backup.
Release	Release 8.0(1)
Associated CDETS #	None.
