

**Back to:** [Call Flow Details for Cisco MediaSense](#)

**Back to:** [Category: Cisco MediaSense](#)

---

This page contains the detailed results of a number of carefully defined call flows. The results include:

- The metadata collected by Cisco MediaSense, presented in JSON format
- The list of session events published by Cisco MediaSense

The tests documented in this page use the following Cisco MediaSense configuration:

- All phones are registered to a Unified CM.
- Incoming call is directed by Unified CM through a SIP Trunk to Cisco Unified Border Element (CUBE). CUBE loops the call back to Unified CM.

## Call Flows and Resulting Data

Three phones have been configured on the CUCM at 10.194.118.44. They are extn 1053 (g711), 1054(g711) and 1057(g729). All tests are initiated by making a call from extn 1053. After that, different call flows are implemented by dialing different numbers from that phone.

No.	Call Flow	Details	CCID	Data	Events	Notes
i.	Blind Transfer - g711 phone performs transfer	1053 dials 7771054 and connects to 1054. 1054 transfers to 1057 by dialing 1057 and hangs up during ringing. 1057 answers, then later drops.	Session: <ul style="list-style-type: none"> <li>• 1013283613f5c1</li> <li>• 111328361659f1</li> </ul> CCID: <ul style="list-style-type: none"> <li>• 0398868736-0000065536-0000005901-0745980426</li> </ul>		<ul style="list-style-type: none"> <li>• <a href="#">Event</a> i</li> <li>• <a href="#">Metadata</a> i</li> </ul>	<ul style="list-style-type: none"> <li>• Conversation between 1053 and 1054 before transfer</li> <li>• Conversation between 1053 and 1057 after transfer</li> </ul>
ii.	Blind Transfer - g729 phone performs transfer	1053 dials 7771057 and connects to 1057. 1057 transfers to 1054 by dialing 1054 and hangs	Session: <ul style="list-style-type: none"> <li>• 12132836810ee1</li> <li>• 131328368278a1</li> </ul> CCID: <ul style="list-style-type: none"> <li>• 0573901440-0000065536-0000005902-0745980426</li> </ul>		<ul style="list-style-type: none"> <li>• <a href="#">Event</a> ii</li> <li>• <a href="#">Metadata</a> ii</li> </ul>	<ul style="list-style-type: none"> <li>• Conversation between 1053 and 1057 before transfer</li> </ul>
