

**Cannot activate DB components on HA node**

<b>Problem Summary</b>	Cannot activate DB components on HA node.
<b>Error Message</b>	Error related to DB Engine Version or DB Engine Edition mismatch during activation of DB components.
<b>Possible Cause</b>	HA requires both the nodes to have SQL 2K installed and the SQL 2k should be of same version on both nodes.
<b>Recommended Action</b>	Ensure both nodes have the same version of SQL 2K installed.
<b>Release</b>	Release 7.0, Release 5.0
<b>Associated CDETS #</b>	None.
