

**Cannot activate Datastore components on HA node**

<b>Problem Summary</b>	Cannot activate Datastore components on HA node. Error related DB Edition mismatch during activation of Datastore components.
<b>Error Message</b>	
<b>Possible Cause</b>	HA requires both the nodes to have SQL 2K installed and the SQL 2K should be of same version on both nodes.
<b>Recommended Action</b>	Ensure both nodes have SQL 2K installed. If there is mismatch, open CET->ClusterDependantConfig and edit the DB Edition field.
<b>Release</b>	Release 7.0, Release 5.0
<b>Associated CDETS #</b>	None
