

Charts and Gauges: The Chart Save Fails

Problem Summary	Your "save" of a chart view fails.
Error Message	The error message says that the Save operation failed but does not provide a reason.
Possible Cause	While you were working on the chart view for a report, another user updated or changed the report itself. By the time you saved the chart, the report version had changed and you were not working with the most current version of the report.
Recommended Action	Refresh the report from the Available Reports page and recreate the chart.
Release	Release 8.0(1)
Associated CDETS #	None
