

## Charts and Gauges: The Report View is Blank

<b>Problem Summary</b>	You create a chart view for a report, run the report, and select the chart view. The chart is blank.
<b>Error Message</b>	None
<b>Possible Cause</b>	There is no data for the items that you charted.
<b>Recommended Action</b>	Run the grid view for the report, filtering for the data you plan to chart. If the grid view returns no data, then the chart will be blank. The grid view footer shows the records returned.
<b>Release</b>	Release 8.0(1)
<b>Associated CDETS #</b>	None
