

Cisco SNMP Agent Management: Traps not sent to some hosts

Problem Summary	Traps not sent to some destinations of a community.
Error Message	None, but traps are not sent
Possible Cause	The community does not have the host address configured in the SNMP Community configuration section.
Recommended Action	Add the trap destination host address to the community, configured in the SNMP community configuration
Release	Release 7.5(1) and 8.0
Associated CDETS #	CSCtj09249
