

[Cisco Unified MeetingPlace, Release 6.x](#) > [Cisco Unified MeetingPlace Audio Server](#) > [Configuring](#) > [Configuring NSF Codes](#)

The NSF code type determines if the NSF is a service or feature. There are four NSF code types, as listed in [Table: NSF Code Types](#).

**Table: NSF Code Types**

<b>NSF Code Type</b>	<b>Example</b>
Service	Software Defined Network (SDN) by AT&T
Feature	Billing Number preferred for ANI by AT&T
Service plus modifying parameter	Outwats and Tie Line by Bell Canada
Feature plus modifying parameter	Vari-A-Bill (Flexible Billing) by AT&T
