## Best Practice for Effective Searching on the DocWiki

For the best results, we recommend using **Google** for searching.

### Procedure

In your web browser, navigate to Google.com and enter the following:

**<your\_search\_term> site:docwiki.cisco.com**

*Note:* Don't enter the < and > brackets. You can use quotations and other standard search options.

### To Refine Your Search

The string above will search the entire DocWiki. To refine your results to just Cisco Unified MeetingPlace Release 7.0, enter this:

**<your\_search\_term> "MeetingPlace, Release 7.0" site:docwiki.cisco.com**

*Note:* Be sure to enter the comma after MeetingPlace.

## **Example**

For example, to learn about certificates in Cisco Unified MeetingPlace Release 7.0, enter this:

**certificate "MeetingPlace, Release 7.0" site:docwiki.cisco.com**

## **For more information**
