**Up one level:** [Reference Information](#)

To find this page, click **Maintenance > Licenses > Install Licenses**.

**Table: Field Reference: Install Licenses Page**

<b>Field</b>	<b>Description</b>
Upload new license file	Specifies to delete all previously installed licenses before installing the license file.  Restriction: Select this option only when uploading licenses to your system for the first time, or in the unlikely event that you must install an entirely new set of licenses.
Append incremental license file	Specifies to keep all the previously installed licenses and to add additional licenses from the license file.
Host ID (MAC address)	<i>Display only.</i> MAC address of the Application Server. You need this address to obtain licenses.
License file to use	Directory path and filename of the license file.
Install License	Installs the file specified in the <a href="#">License file to use</a> field.
Restart License Manager	Use this button to start or restart the license manager.
Download License	Use this button to save a copy of the license file.
