Cisco_Unified_MeetingPlace,_Release_7.1_--_Installing_the_Cisco_Unified_MeetingPlace_LCS_Gateway

Main page: Cisco Unified MeetingPlace, Release 7.1

Navigation: <u>Integration</u> > <u>Integrating with Microsoft Office Communicator</u>

Restrictions

- You must have Administrator permissions for the Cisco Unified MeetingPlace Web Server.
- You must install the Cisco Unified MeetingPlace LCS Gateway in the same directory in which you install Cisco Unified MeetingPlace web conferencing. (For example, if you install web conferencing in C:\Program Files\Cisco Systems, also install the Cisco Unified MeetingPlace LCS Gateway in the Cisco Systems directory.)

Procedure

- 1. Log in as an administrator to the Cisco Unified MeetingPlace Web Server.
- 2. Stop the Cisco Unified MeetingPlace web conferencing services.

 See <u>How to Use the Cisco Unified MeetingPlace Web Conferencing Service</u> for information about starting and stopping services.
- 3. Stop the Cisco Security Agent for Cisco Unified MeetingPlace service, if applicable.
- 4. Insert the Cisco Unified MeetingPlace LCS Gateway CD into your CD or DVD-ROM drive.
- 5. Double-click the setup.exe file.
- 6. Follow the prompts to install the application.
- 7. Click **Finish** from the installation complete window.
- 8. Click **OK** when the system reminds you to configure the Cisco Unified MeetingPlace LCS Gateway.
