Main page: Cisco Unified MeetingPlace Express, Release 2.x

Previous page: Page References

This page is used to edit language property files, which define the language translations of tags used in e-mail notifications.

- Field Reference: Edit Language Property File
- Editing Area of the Edit Language Property File Page

Field Reference: Edit Language Property File

Table: Field on the Edit Language Property File Page

Field	Description	Value
Language	The language property file to view and modify.	Choose from the drop-down menu of installed and enabled languages. Default: en_US (U.S. English)

Editing Area of the Edit Language Property File Page

Use the editing area on this page to modify language property files, which define the language translations of the tags used in the templates.

- Because the same tags are used in multiple templates, you should preview all templates after modifying a language property file.
- To view or modify a different language property file, modify the Language field at the top of the page.
