

Main page: [Cisco Unified MeetingPlace Express, Release 2.x](#)

Previous page: [Page References](#)

This page is used to restore an SSL configuration for an SMA server, including any certificates, that you have previously saved.

Table: Fields on the SMA Restore SSL Configuration Page

Field	Description	Value
Archived SSL configuration	The name of the file that contains the SSL back up configuration that you wish to restore.	To locate the file, click Browse .
