

Main page: [Cisco Unified MeetingPlace Express, Release 2.x](#)

Previous page: [Page References](#)

This page is used to upload a language property file from a PC to Cisco Unified MeetingPlace Express.

Table: Fields on the Upload a Language Property File Page

Field	Description	Value
Language Name	Language with which to associate the property file.	Choose from the drop-down menu of installed and enabled languages. Default: English (US)
Choose language file to upload	Directory path and filename of the language property file on the PC. Restriction: Filename must exactly match the name of an existing Cisco Unified MeetingPlace Express language property file.	To locate the file, click Browse .
