

Main page: Cisco Unified MeetingPlace Express, Release 2.x

Table: Web Ports lists the ports that have to be opened internally and externally so that internal and external customers can use the web.

Table: Web Ports

Port Number	Description
TCP port 80	HTTP
TCP port 443	HTTPS
TCP port 1935	Web conferencing (optional, but recommended)

Table: Voice Ports lists the ports that have to be opened internally (assuming that your Cisco Unified Communications Manager is internal) for voice.

Table: Voice Ports

Port Number	Description
TCP port 1720	H.323 host call
UDP port 5060	SIP
UDP ports 16384-20480	Voice RTP streams
UDP ports 20480-24576	Video RTP streams
TCP ports 32768-61000	Ephemeral port range for the system
TCP ports 62000-62999	H.323
TCP port 2000	SCCP communications with Cisco Unified Communications Manager (if using Cisco Unified MeetingPlace Express VT)
UDP port 69 and 32767	TFTP download from Cisco Unified Communications Manager (if using Cisco Unified MeetingPlace Express VT)

Table: Application Ports lists the ports that need to be opened only if you use the application.

Table: Application Ports

Port Number	Description
TCP port 22	SSH
TCP port 25	SMTP
TCP port 110	POP3
UDP port 123	NTP
UDP port 161	SNMP

For specific information about segmented meeting access (SMA) ports, see [Port Configuration for SMA](#).
