

[Cisco Unified MeetingPlace Release 6.1](#) > [Cisco Unified MeetingPlace Audio Server](#) > [Configuring](#) > [Configuring NSF Codes](#)

The NSF code type determines if the NSF is a service or feature. There are four NSF code types, as listed in [Table: NSF Code Types](#).

Table: NSF Code Types

NSF Code Type	Example
Service	Software Defined Network (SDN) by AT&T
Feature	Billing Number preferred for ANI by AT&T
Service plus modifying parameter	Outwats and Tie Line by Bell Canada
Feature plus modifying parameter	Vari-A-Bill (Flexible Billing) by AT&T
