

[Cisco Unified MeetingPlace Release 6.1](#) > [Cisco Unified MeetingPlace Audio Server](#) > [Maintaining](#) > [File Import Specifications](#)

Fields that have a group default option have corresponding fields that determine whether the group default value is used when importing profile and group information. These corresponding fields typically have the abbreviated names "Is<field name>Default" or "Is<field name>Def" or "<field name>IsDef" where <field name> is the abbreviated name of the field with a group default option.

**Caution!** If any of the following values are set to *Yes*, the group default values for these fields are overridden.

**Table: Table B-2 Import Database Default Fields**

Field	Abbreviation	Type of Value, or Value Choices
Abbreviated prompts	IsAdvancedPromptsIsDefault	yes/no
Departure announcement	NamedDisconnectIsDefault	yes/no
Entry announcement	NamedIntroductionIsDefault	yes/no
Password required	PasswordRequiredIsDefault	yes/no
Screened entry	ScreenedIntroductionIsDefault	yes/no
Billing code	BillCodeIsDefault	yes/no
User active?	IsActiveIsDefault	yes/no
Allow guest outdial in mtgs	CanOutdialIsDefault	yes/no
User ID of contact	IsContactIDDefault	yes/no
Time zone	TimeZoneIsDefault	yes/no
Skip pre-meeting options	IsQuickMtgEntryAllowedDefault	yes/no
Ask for profile password on guest outdial	IsPasswordRequiredOnODDefault	yes/no
Record meetings	RecordMeetingsIsDefault	yes/no
Who can attend	IsMeetingRestrictionDefault	yes/no
Who can access	IsMtgNoteRestrictionDefault	yes/no
Able to record mtgs	CanRecordMeetingsIsDefault	yes/no
Digit translation table	IsODXLatTableNumDefault	yes/no
Single System Image-Roll Map ID	IsSSI_RollMapIDDefault	yes/no
Single System Image-Site ID	IsSSI_SiteIDDefault	yes/no
Single System Image-System ID	IsSSI_SystemIDDefault	yes/no
Fax phone number	IsFaxNumDefault	yes/no
Scheduling restriction	IsMaxImmedMtgsPerDayDefault	yes/no
Max mtg length (min)	IsMaximumMeetingLengthDefault	yes/no

## Cisco\_Unified\_MeetingPlace\_Release\_6.1\_--\_Import\_Database\_Default\_Fields

Max outdials per mtg	IsMaxVUIODsPerMtgDefault	yes/no
Type of e-mail system	IsEmailTypeDefault	yes/no
Site	IsSiteDefault	yes/no
Scheduling home server (not supported in Cisco Unified MeetingPlace Audio Server Release 5.0 and later)	IsPreferedUnitDefault	yes/no
Fax digit translation table	IsFaxXLatTableNumDefault	yes/no
Send Notifications about meetings	IsSendNotAboutMtgsDefault	yes/no
Send the Attachment by default	IsAutoDistributeAttDefault	yes/no
Default notification priority	IsDefNotPriorityDefault	yes/no
Send notifications if meeting changes	IsSendNotAboutMtgChngsDefault	yes/no
Send invitee list with notifications	IsSendInviteListWithNotDefault	yes/no
Send meeting password with notifications	IsSendMtgPwdWithNotDefault	yes/no
Attachment access ordering	IsFIFOAttPlayOrderDefault	yes/no
Sched only on home server? (not supported in Cisco Unified MeetingPlace Audio Server Release 5.0 and later)	IsfSchedPrefUnitOnlyDefault	yes/no
Maximum number of attachments	IsMaxAttPerMtgDefault	yes/no
Recording starts automatically	IsfAutoStartRecordDefault	yes/no
Roll call is disabled	IsfDisableRollCallDefault	yes/no
Sched only on NS home site (not supported in Cisco Unified MeetingPlace Audio Server Release 5.0 and later)	IsfSchedHomeSiteOnlyDefault	yes/no
QampersandA introduction	IsAnnounceQArrDefault	yes/no
QampersandA departure	IsAnnounceQDepDefault	yes/no
Off at mtg startup?	IsfQNADisabledDefault	yes/no
Tell my position in line	IsfTellPartPosDefault	yes/no
Disable floor warning prompt	IsfDisableAdvanceInfoDefault	yes/no
Automatically ask next question	IsfAutoProEnabledDefault	yes/no
Lecture meeting attend settings?	IsfStartPeopleInWRDefault	yes/no
Display meeting to everyone for scheduled	IsfAllowGuestViewDefault	yes/no
More than one question per site?	IsConcurrentQuestionsDefault	yes/no
Max # teams allowed	IsPublicULAllowedDefault	yes/no
Number of group-wide teams the user can create	IsGroupULAllowedDefault	yes/no
Number of private teams user can create	IsPrivateULAllowedDefault	yes/no
Default mtg category	IsMeetingCategoryDefault	yes/no
Can call other servers?	IsfCanInviteRSDefault	yes/no
Allow Internet Access	IsfAllowInternetAccessDef	yes/no
Profile Type	IsProfileTypeDef	yes/no
Video Attend Preference	IsVideoAttendPreferenceDef	yes/no
Video MCU Only	IsfVideoMCUOnlyDef	yes/no
Allow Internet Access for Reservationless	IsfRsvnlessAllowInternetAccDef	yes/no
Display Meeting to Everyone for Reservationless	IsfRsvnlessAllowGuestViewDef	yes/no
