Best Practice for Effective Searching on the DocWiki

For the best results, we recommend using **Google** for searching.

Procedure

In your web browser, navigate to Google.com and enter the following:

<your_search_term> site:docwiki.cisco.com

Note: Don't enter the < and > brackets. You can use quotations and other standard search options.

To Refine Your Search

The string above will search the entire DocWiki. To refine your results to just Cisco Unified MeetingPlace Release 6.0, enter this:

<your_search_term> "6.x" site:docwiki.cisco.com

Example

For example, to learn about certificates in Cisco Unified MeetingPlace Release 6.0, enter this:

certificate "6.x" site:docwiki.cisco.com
