

Main page: [Cisco Unified MeetingPlace, Release 8.0](#)

Up one level: [Planning Your Deployment](#)

Licenses enable specific features and capabilities on the system. You purchase license SKUs with your Cisco Unified MeetingPlace order and install the license file for that order to enable the features and capabilities that you purchased. You may also upgrade your system by purchasing and installing additional licenses. The maximum number of port licenses that you can apply is 2,000 per license.

Use the information in this section to determine if you need to purchase and install additional licenses.

Table: Licenses for Cisco Unified MeetingPlace Release 8.0 describes the available licenses for Cisco Unified MeetingPlace Release 8.0.

Table: Licenses for Cisco Unified MeetingPlace Release 8.0

| License | Description | Type |
|------------------------------|--|---------|
| Conferencing Licenses | | |
| videoconf | <p>The videoconf license limits the number of concurrent video participants in meetings. The available number of video ports may be further limited by the maxvideo license.</p> <p>If you do <i>not</i> install the videoconf license, the system can use only the six trial video ports for meetings. (A port is defined as a single video caller connecting at any rate.)</p> | counted |
| voiceconf | <p>The voiceconf license limits the number of concurrent voice participants in meetings, including:</p> <ul style="list-style-type: none"> • Calls to and from the system • Voice participants in meetings <p>The available number of voice ports may be further limited by the maxvoice license.</p> <p>If you do <i>not</i> install the voiceconf license, the system can use only the six trial voice ports for premium (scheduled) meetings.</p> | counted |
| Maximum Licenses | | |
