

Columns displaced in Excel spreadsheet when exporting a report

Problem Summary	When exporting an Agent Summary Report (by agent) to a Microsoft Excel spreadsheet, the Avg and Max statistics column headings are displaced.
Error Message	None.
Possible Cause	Information can be displaced if the extended Excel format is not used.
Recommended Action	Use the Microsoft Excel 7. (XLS) Extended format in the Export dialog box while exporting the report to Excel. This will pop up a second dialog box. Use the default settings.
Release	Release 7.0(1)
Associated CDETS #	None.
