

**Configuration: Server Not Responding to Ping Command**

<b>Problem Summary</b>	There are several configuration actions that direct the Configuration tool to ping a server. At times, you may receive an error message that indicates that a server did not respond to the Ping command.
<b>Error Message</b>	Server did not respond to the ping command.
<b>Possible Cause</b>	The server might have ping disabled.
<b>Recommended Action</b>	It is safe to ignore these messages, as the Ping is done only to detect typos in the entry of the host name.
<b>Releases</b>	Release 7.5(x)
<b>Associated CDETS #</b>	None
