

Database size is not supported during backup using PUT

Problem Summary	Pre-Upgrade tool backup operation failed with unsupported DB size error.
Error Message	The used DB space XXX is greater than the size supported in Unified CCX Dactyl release YYY.
Possible Cause	The used DB space is greater than the size supported in Unified CCX Dactyl release.
Recommended Action	Maximum supported used DB size for PUT backup is 10 GB in CCX 5.0(x)/7.0(x) servers. So purge the data to make the DB size under 10 GB and perform the backup.
Release	Release 8.0(1)
Associated CDETS #	None.
