

**Database size is not supported during backup using PUT**

<b>Problem Summary</b>	Pre-Upgrade tool backup operation failed with <b>unsupported DB size</b> error.
<b>Error Message</b>	The used DB space XXX is greater than the size supported in Unified CCX Dactyl release YYY.
<b>Possible Cause</b>	The used DB space is greater than the size supported in Unified CCX Dactyl release.
<b>Recommended Action</b>	Maximum supported used DB size for PUT backup is 10 GB in CCX 5.0(x)/7.0(x) servers. So purge the data to make the DB size under 10 GB and perform the backup.
<b>Release</b>	Release 8.0(1)
<b>Associated CDETS #</b>	None.
