

DialingList Config Object not shown in CET

Problem Summary	The DialingList Config Object is not available in the CET Tool.
Error Message	None.
Possible Cause	The DialingList config object is removed from the CET tool due to overloading issues, and hence, is not viewable from there.
Recommended Action	For accessing DialingList config object, please use any available SQL Client such as Squirrel SQL Client to query the DialingList contacts information.
Release	Release 8.5(1)
