

Downloading_OVA_Templates_for_UC_Applications

The configuration of a UC Application virtual machine must match a supported virtual machine template.

Perform the following procedure to obtain the virtual machine template for a UC Application on Virtualized Servers:

1. Go to Unified Communications Virtualization Downloads (including OVA/OVF Templates).
2. Determine the OVA download location for the UC Application.
3. Proceed to the applicable Cisco download page determined from Step 2 above.
4. To download a single OVA file, click the **Download File** button next to that file. To download multiple OVA files, click the **Add to Cart** button next to each file that you want to download, then click on the **Download Cart** link. A Download Cart page appears.
5. Click the **Proceed with Download** button on the Download Cart page. A Software License Agreement page appears.
6. Read the Software License Agreement, then click the **Agree** button
7. On the next page, click on either the **Download Manager** link (requires Java) or the **Non Java Download Option** link. A new browser window appears.
 - ◇ If you selected Download Manager, a Select Location dialog box appears. Specify the location where you want to save the file, and click **Open** to save the file to your local machine.
 - ◇ If you selected Non Java Download Option, click the **Download** link on the new browser window. Specify the location and save the file to your local machine.
