

Export file name does not appear in Export dialog box

Problem Summary	A default export file name does not appear in the Export dialog box.
Error Message	None.
Possible Cause	If you click the Export Report tool in the Report Viewer on a Cisco Unified CCX Historical Reports client computer on which the language is set to Simplified Chinese, the Export dialog box will not contain a default export file name.
Recommended Action	The name of the report is shown on the header of the report in the Report Viewer. In the Export dialog box, specify a name for the exported report using the report name; for example, you can name your PDF report<ReportName>_<startdatetime>_<enddatetime>.pdf.
Release	Release 7.0(1)
Associated CDETS #	None.
