

## Editing Operations Console screens don't return to previous screen when cancelled

<b>Problem Summary</b>	Editing Operations Console screens don't return to previous screen when cancelled.
<b>Error Message</b>	None.
<b>Possible Cause</b>	When you select an existing Runtime Server and then click <b>Cancel</b> , the page changes to the Runtime Server summary page. It does not return to the previous page. The same problem exists if you select the Reporting Server, and click <b>Cancel</b> . It returns to the Reporting Server summary page.
<b>Recommended Action</b>	This is a benign problem and has no effect on any functionality.
<b>Release</b>	Release 7.6(1)
<b>Associated CDETS #</b>	None.
