

Unified Expert Advisor web page timeout does not default to login page

Problem Summary	Unified Expert Advisor web page timeout does not default to login page.
Error Message	None.
Possible Cause	An unused screen may time out and automatically log out the administrator without any evidence of the log out on the screen. When the administrator tries to click something on that page, the login page appears and the requested action is not performed.
Recommended Action	You will experience this problem on any Unified Expert Advisor Operations Console page. Be sure to edit and save changes before the default timeout (30 minutes) occurs.
Release	Release 7.6(1).
Associated CDETS #	None.
