

## Unified Expert Advisor web page timeout does not default to login page

<b>Problem Summary</b>	Unified Expert Advisor web page timeout does not default to login page.
<b>Error Message</b>	None.
<b>Possible Cause</b>	An unused screen may time out and automatically log out the administrator without any evidence of the log out on the screen. When the administrator tries to click something on that page, the login page appears and the requested action is not performed.
<b>Recommended Action</b>	You will experience this problem on any Unified Expert Advisor Operations Console page. Be sure to edit and save changes before the default timeout (30 minutes) occurs.
<b>Release</b>	Release 7.6(1).
<b>Associated CDETS #</b>	None.
