

Main Page: [Cisco Unified Presence, Release 8.x](#)

Printing a PDF from DocWiki

You can easily create a PDF of any set of DocWiki articles. Because DocWiki contains up-to-date information for a given Cisco Unified Presence release, **the PDF that you generate from DocWiki is always the most current.**

To make it easier for you, we grouped configuration sample deployments that you might want to print.

Go to any article below that you want to print and click Print PDF.

Configuration Sample Deployments

Print PDF: [Print Sample Deployments](#)

- [Configuring the Federation Proxy on Cisco Adaptive Security Appliance using the Unified Communication Wizard](#)
- [Sample Configuration Workflow for Deploying Cisco Unified Presence with Cisco Unified Personal Communicator](#)
