

## How to use JavaScript greater than, less than and ampersand symbols in vxml var expr declaration

<b>Problem Summary</b>	Not able to use greater than, less than and ampersand symbols in vxml
<b>Error Message</b>	VXML Parsing failure error message or improper vxml execution results.
<b>Possible Cause</b>	Greater than, less than and ampersand symbols not declared properly
<b>Recommended Action</b>	<p>Many JavaScript operators (&lt;, &gt;, &amp;, &amp;&amp;) have special significance in XML, thus their equivalent entities must be used in expressions and conditions. For example operators and their corresponding entities are:</p> <p>&lt; &amp;(ampersand)lt;</p> <p>&gt; &amp;(ampersand)gt;</p> <p>&amp; &amp;(ampersand)amp;</p> <p>" &amp;(ampersand)quot;</p> <p>remove the 'ampersand' while using the same.</p>
<b>Release</b>	Release 8.0(1)
