

"Select into/bulkcopy" option is Missing on the Local Database (awdb) or Logger database

Problem Summary	The "Select into/bulkcopy" option is missing on the local database (awdb) or Logger database
Error Message	No message
Possible Cause	The database was dropped at some point and not recreated properly. (The proper method would have been to use ICMDBA, which would have set the following default database options during the database creation: Trunc. log on chkpt.; Select into/bulkcopy.)
Recommended Action	<ul style="list-style-type: none"> • In either case, you could recreate this database option — on the Administration & Data Server or the Logger, as appropriate. • -OR- • If this database option is missing on the local database (awdb): <p>Delete the local database (awdb). Run the Web Setup tool, which recreates the local database (awdb). -OR- If this database option is missing on the Logger database, recreate the database using the sp_db option in order to add the Select into/bulkcopy option.</p>
Release	Release 7.5(1) and 8.0
Associated CDETS #	None.
