

Events are coming across but no statistics are showing up

Problem Summary	Although events are happening, no statistics are available.
Error Message	None.
Possible Cause	A possible cause for this problem is that the peripheral ID of the parent system does not match the peripheral ID of the child system.
Recommended Action	Ensure that the server peripheral ID of the Unified ICME parent system matches the peripheral ID of the Unified CCE child system. If they do not match, most received events are ignored.
Release	Release 7.5(1) and 8.0
Associated CDETS #	None.
