

p,_no_relevant_message_displayed_after_data_check_or_resync,_if_ports_not_created_for_any_of_the_nodes_for_a_C

Problem Summary	In HAoWAN setup if a Call Control Group doesn't have ports for any of the nodes in UCCX, Data Check or Resync result doesn't show any relevant message for that node.
Error Message	NA
Possible Cause	Functionality is not affected, but results will be displayed as In-Sync under the Node even though CTI ports for the Call Control Group doesn't exist for that node in UCCX.
Recommended Action	NA
Release	Release 8.5(1)
Associated CDETS #	NA
