

**Installation: SQL Hardening**

<b>Problem Summary</b>	During installation SQL hardening fails
<b>Error Message</b>	Not applicable.
<b>Possible Cause</b>	It is possible for the Cisco Unified IC SQL Hardening to fail if it is preempted by your organization's SQL Hardening policy.
<b>Recommended Action</b>	None. During the installation, SQL Hardening is applied to the Archiver and the CUIC databases. SQL Hardening is the process of allowing connection to SQL Server by Windows authentication only.  Should SQL Hardening fail for any reason, there is no effect on functionality. In the of the failure of SQL Hardening, it will be possible to connect to SQL Server using both Windows authentication and SQL authentication.
<b>Releases</b>	Release 7.5(x)
<b>Associated CDETS #</b>	None
