

InstallShield Engine Cannot Be Installed

Problem Summary	During Unified CVP installation, the following error message appears:
Error Message	“The InstallShield Engine(iKernel.exe) could not be installed. Ikernel.exe could not be copied to C:\Program Files\Common Files\InstallShield\Engine\6 \Intel 32.”
Possible Cause	Multiple instances of the Install Program are being run. Note: InstallShield (the install program for the Unified CVP) allows only one ikernel.exe to be running at a time.
Recommended Action	Stop all install programs and run the Unified CVP installation program.
Release	Release 7.0(2)
Associated CDETS #	None.
