

Failed to create RAID on IBM 782x-I4 servers

Problem Summary	UCCX installation fails on a MCS Hardware type 782x-I4 servers
Error Message	CFGGen Raid Security:Failed to create RAID
Possible Cause	The file system is read only.
Recommended Action	This is a known platform defect
Release	UCCX 8.0(2)
Associated CDETS #	IBM 782x-I4 READONLY file system

CREATE THE RAID 1 MANUALLY IN THE LSI UTILITY USING CONTROL C on bootup. Then Continue running the installer setup. Should cure the issue.
