

## Failed to create RAID on IBM 782x-I4 servers

<b>Problem Summary</b>	UCCX installation fails on a MCS Hardware type 782x-I4 servers
<b>Error Message</b>	CFGGen Raid Security:Failed to create RAID
<b>Possible Cause</b>	The file system is read only.
<b>Recommended Action</b>	This is a known platform defect
<b>Release</b>	UCCX 8.0(2)
<b>Associated CDETS #</b>	IBM 782x-I4 READONLY file system

CREATE THE RAID 1 MANUALLY IN THE LSI UTILITY USING CONTROL C on bootup. Then Continue running the installer setup. Should cure the issue.
