Cisco Certified Design Associate (CCDA)

Definition

The CCDA (Cisco Certified Design Associate) is first-level general IT certification. Cisco offers three levels of general IT certifications: Associate, Professional, and Expert.

Details

The CCDA certification indicates a foundation or apprentice knowledge of network design for the Cisco converged network. CCDA certified professionals can design routed and switched network infrastructures and services involving LAN, WAN, and broadband access for businesses and organizations.

CCDA is a registered trademark of Cisco Systems.
